---

## CAREER OBJECTIVES:

To contribute to a forward-thinking organization by leveraging my skills and knowledge in cloud computing, application development, and data management, while continually enhancing my expertise. I seek to exceed expectations and grow as a professional, aligned with organizational goals.

## EDUCATION:

- Master of Computer Applications | Oct 2023  
Noorul Islam Centre for Higher Education, Kumaracoil, Kanniyakumari | CGPA: 7.29
- Bachelor of Computer Applications | July 2021  
Noorul Islam College of Arts and Science, Kumaracoil, Kanniyakumari | CGPA: 7.6

## PROJECTS:

- Highly Available Web Application in Multiple Regions
  - Tools: Azure Virtual Machines, Azure Load Balancer, Azure Traffic Manager
  - Description: Deployed a fault-tolerant web application across multiple regions to ensure high availability and scalability using Azure Traffic Manager and load balancing.
- Hybrid Scenarios
  - Tools: Azure VPN Gateway, On-premises Infrastructure
  - Description: Designed and implemented a hybrid cloud environment integrating on-premises resources with Azure for seamless data exchange and operational continuity.
- Image Transition
  - Tools: Azure Cognitive Services, Python
  - Description: Developed an AI-based image transformation system leveraging Azure Cognitive Services for real-time image enhancement and manipulation.

## TECHNICAL SKILLS

- Microsoft Azure (VMs, Storage, App Services, Firewall, VPN, Load Balancing)
- Tableau Development
- Networking Fundamentals
- MS Office

## CERTIFICATION

- Azure Certification – GUVI IIT Madras
- Steve Jobs Scholarship
- Git

## FUNCTIONAL SKILLS

- Cloud Architecture & Deployment
- Data Management & Security
- Performance Optimization
- Networking & VPN Configuration
- Hybrid Cloud Scenarios
- Disaster Recovery Planning
