Career Objective

To contribute to a forward-thinking organization by leveraging my skills and knowledge in cloud computing, application development, and data management, while continually enhancing my expertise. I seek to exceed expectations and grow as a professional, aligned with organizational goals.

Experience

- Designed and maintained Azure Virtual Machines to meet client specifications.
- Implemented data backup and site recovery using Azure Recovery Services Vault.
- Managed cloud resources for optimized performance, scalability, and cost efficiency.
- Developed and maintained secure Azure Storage Accounts.
- Deployed applications using Azure Cognitive Services.
- Integrated on-premises and cloud infrastructures through hybrid cloud scenarios.
- Configured Azure Firewall for enhanced security and access control.
- Deployed and scaled web applications with Azure App Services.
- Established secure site-to-site VPN connections.
- Enhanced application performance and availability with load balancing.
- Implemented Azure Site Recovery for disaster recovery and business continuity.
- Automated scaling with Virtual Machine Scale Sets (VMSS).

PROJECTS

- Highly Available Web application in Multiple region using Azure
- Image Transition
- Hybrid Scenarios

Education

- Master of Computer Applications | Oct 2023 | Noorul Islam Centre For Higher Education , Kumaracoil , Kanniyakumari |CGCP: 7.29
- Master of Computer Applications | Oct 2023 | Noorul Islam College Of Arts and Science , Kumaracoil , Kanniyakumari |CGCP: 7.6

Skills

- Cloud Computing
- Tableau developer
- Networking
- MS Office

Certification and Internship

- Steve jobs Scholarship
- Azure in GUVI IIT Madras
